

VISION™ Risk Assessment Tool

Have you analyzed the risks that exist in your community?
VISION™ Risk Assessment gives you control:

- Calculate response times and plan resource deployment
- Record the location and potential impact of hazardous material
- Determine the required fire flow needed to stop a fire at origin
- Evaluate potential medical emergencies involving mass casualties
- VISION™ supports CPSE accreditation - no software installation needed
- More than 10,000 customers assess community risk with VISION™
- Over 50 Department of Defense installations are customers
